

# WELCOME TO MUNICH!

Dear Colleagues,

A very warm welcome to Munich!

It's a true pleasure to have you here as we mark the **official Vimseltinib Launch** and **inauguration of our new German office**. This is a significant milestone not only for Germany, but for the entire region — and it's made even more special by having the International Leadership Team and our DACH colleagues come together to celebrate it.

Over the coming days (**24–26 October 2025**), we'll focus on key strategic discussions, connect across teams, and take time to celebrate what we've achieved — and where we're heading next.

To round off the occasion in true Bavarian style, **we'll be enjoying Oktoberfest together** — a chance to raise a glass and **celebrate our shared success** in an unforgettable setting.

Please take a moment to review the materials included in this welcome package. Inside, you'll find **practical information** about the agenda, meeting location, and logistics to help you make the most of your time here.

**I look forward to inspiring days together.**

With best regards,

Holger
